# Company

With 21 years of experience, **Green Seas International LTD** is a trusted provider of ship repair, shipbuilding, and related services to the marine industry, operating in Romanian ports and globally. Our capabilities extend to civil and industrial steel construction.

## History

**Green Seas International LTD** is a Romanian-registered company (J13/1619/1999, Tax ID RO12096077) with headquarters and facilities strategically located near the Black Sea in Constanta, Romania.

Since 2003, we have diversified our activities and successfully collaborated with companies involved in offshore and aluminum industry projects in Norway, Sweden, and Iceland. Our portfolio includes **Alcan Alesa** (Switzerland), **Peder Halvorsen** (Norway), and **Heddin** (Iceland).

In 2006, we expanded our presence with a branch in **Garðabær, Iceland**, focusing on implementation and assembly projects for industrial equipment and conveyors in aluminum plants such as **Norðurál & Isal**.

**”Our mission is to meet our clients’ needs & expectations, while delivering successful projects.**

# Resources

We have invested in expanding our facilities and installing new equipment to enhance production efficiency and product quality.

One of our greatest strengths is our qualified and experienced management team and our highly skilled professional employees.

Our Constanta, Romania facilities feature **two fully-equipped workshops**, a spacious 700 sqm and a versatile 500 sqm, capable of handling projects of any size. In addition to these workshops, we offer two dedicated 70 cubic meter cabinets for **professional sandblasting and painting**.

Each workshop is equipped with **crane facilities** and a full suite of steelworking tools, including **welding machines, plasma cutters**, and a range of **drilling and milling machines**.

At the heart of our operations is a commitment to the safety and well-being of our personnel. We recognize that a safe and healthy work environment is paramount to project success. To that end, we've implemented a comprehensive **Safety and Environmental Management Program (SEMP)**, a documented and awareness-driven program based on the guidelines outlined in API RP 75.

Looking up to accomplish its commercial objectives, Green Seas International is accredited by a management system of quality in conformity with **ISO 9001: 2015; ISO 14001: 2015; UNI EN ISO 3834:2:2021** developed by **Bureau Veritas**.

# Our Services

Over the last 20 years we have specialized in Ship Building & Repairs, Oil & Gas projects, and Civil & Industrial Construction.

## Ship Building & Repairs

Since our inception, we have focused on new shipbuilding and ship repair, participating as subcontractors in projects across Romania and in international locations such as Southampton, Belfast, Swansea (UK), Bergen (Norway), and Huelva and Sevilla (Spain).

Green Seas International Ltd. specializes in a wide range of shipbuilding and ship repair projects, including:

- Block section fabrication & assembly for all ship types
- MMA, MIG-MAG, TIG-VIG weldings
- Dock mounting
- Steel buildings
- Rails, gangways, trestles
- Pipe fabrication and assembly (carbon and stainless steel)
- Electrical installation (force & command)
- Automation
- Cable tracing
- Small boat building
- Ship repairs

We employ a team of highly qualified steel fitters and welders with extensive experience and certifications from DNV, Bureau Veritas, and A.N.R. (Romanian Naval Authority).

## Oil & Gas

**Our partnerships in the North Sea have led to new opportunities in offshore projects, including the fabrication of skid modules, mouse holes, steam boilers, heat exchangers, and pressure tanks.**

Our team fabricates most components in our workshop and installs them on-site.

## Civil & Industrial

**Our long-standing partnerships with foreign clients are a testament to the quality of our work. Our flexibility and the experience of our employees have made us a key player in major local projects.**

Thanks to ongoing investments in our facilities, we can now meet all client requirements, including civil and industrial construction development.

## Manpower

**Being involved in shipbuilding & repairs, industrial & civil constructions, offshore oil & gas industry, a highly-skilled team is required.**

Due to the high complexity of the projects we have been involved in, our manpower is under continuous training.

All of our welders are tested in our workshop and certified, according to EN or ASME section IX, with the following certification companies: BV, LR, DNV, TUV.

## Health & Safety

We strongly believe that:

- Our employees deserve a safe working environment
- We are responsible for our employees' safety
- Safe conduct is a condition of employment at Green Seas International.

Our superior performance is rooted in our unwavering commitment to implementing a behavior-based Safety Management System.

# Safety Management System

At **Green Seas International Ltd**, we believe that the safety and health of our personnel and the community are paramount to project success. That's why we've developed a comprehensive **Safety & Environmental Management Program (SEMP)**.

## What is a Safety & Environmental Management System?

Based on API RP 75 guidelines, our Safety & Environmental Management Program (SEMP) provides standardized operating procedures and comprehensive documentation. This initiative aims to elevate worker awareness of critical safety and environmental considerations in onshore/offshore facility operations.

A safe working environment at **Green Seas International Ltd** requires:

- Strong management commitment
- Knowledge-driven supervisory staff
- Dedicated safety officers
- Well-trained, quality- and safety-oriented staff.

Every employee is personally committed to safety at all levels of service, both in the field and in the shop. We maintain 100% compliance with client requirements, prioritizing safety awareness on every job.

# Why Choose Us

We know that long-lasting partnerships are built on trust. That's why our work is driven by four core values – **Quality, Integrity, Partnership, and Safety**. From our point of view, a healthy business is based on strong values.

### Quality

One of our main goals is to deliver high-quality projects. Green Seas International is accredited by a management system of quality in conformity with ISO 9001: 2015; ISO 14001: 2015; UNI EN ISO 3834-2:2021 developed by Bureau Veritas.

### Integrity

Transparency, honesty, and confidentiality stay at the core of the relationship with our partners. For over 20 years, we are known as a reputable company that always meets our clients' expectations.

### Safety

Our superior performance is rooted in our unwavering commitment to implementing a behavior-based Safety Management System.

### Partnership

Creating strong partnerships with our clients is another goal we focus on. In such a competitive market, the reputation and the relationships you build are vital for a healthy business.
